[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

OBJECTIVE

Frontend Developer specializing in React.js and modern JavaScript, with hands-on experience building responsive and interactive web applications. Skilled in React.js, JavaScript, HTML, CSS, Tailwind CSS, React Router, Context API, responsive design, and modern frontend tools. Experienced in developing real-world e-commerce, travel booking, healthcare, and interactive 3D portfolio applications. Seeking a Frontend Developer or React Developer role to contribute to user-focused, scalable web applications and grow within a professional development team.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design

React: React Hooks, Components, Props, Context API, React Router, Reusable Components

Styling and UI: Tailwind CSS, Bootstrap, CSS Animations, Responsive Design, Figma

JavaScript: DOM Manipulation, Events, ES6+, Promises, Async/Await, Fetch API, Local Storage

Animation and Libraries: Framer Motion, GSAP, Three.js, Swiper, React Toastify

Tools and Version Control: Git, GitHub, VS Code, Vite, npm

Backend and Database: Node.js, Express.js, MongoDB, REST APIs, JSON

Deployment: Vercel, GitHub Pages

Also Familiar With: API Integration, State Management, Client-Side Routing

PROJECTS

TrachMart - E-Commerce Web Application

[GitHub](#) | [Live Demo](#)

- Built a modern responsive e-commerce application using React.js and reusable components.
- Implemented product browsing, shopping cart management, and client-side routing.
- Used Context API for centralized application state management.
- Implemented Local Storage for persistent application data.
- Developed a responsive user interface using Tailwind CSS.

GoTravel - Travel Booking Website

[GitHub](#) | [Live Demo](#)

- Developed a modern responsive travel booking website using React.js.
- Implemented destinations, travel packages, wishlist, bookings, and notification features.
- Used Context API and Local Storage for state management and persistent user data.
- Implemented client-side navigation using React Router.
- Added smooth animations using Framer Motion and enhanced interactions using Swiper and React Toastify.

3D Portfolio - Interactive React Portfolio

[GitHub](#) | [Live Demo](#)

- Developed an interactive space-themed portfolio using React.js and Three.js.
- Created immersive 3D visual experiences and interactive frontend elements.
- Used GSAP for smooth animations and dynamic user interactions.
- Built responsive layouts using CSS and reusable React components.
- Used Vite for modern frontend development and project setup.

Dental Clinic Website - Responsive Healthcare Website

[GitHub](#) | [Live Demo](#)

- Developed a modern responsive healthcare website using HTML, CSS, JavaScript, and Bootstrap.
- Created a professional user interface designed for desktop, tablet, and mobile devices.
- Implemented interactive frontend functionality using JavaScript.
- Used Bootstrap to create responsive layouts and reusable UI components.
- Deployed the website using GitHub Pages.

EDUCATION

Bachelor of Computer Applications (BCA)

University of Calicut | 2023 - 2026

SOFT SKILLS

Leadership and Team Collaboration | Active Listening | Communication | Problem Solving | Adaptability | Time Management

TARGET ROLES

Frontend Developer | React Developer | Junior React Developer
